INTRODUCTION

Hello, you can call me Kaito, I am a senior student at Can Tho University, majoring in Software Engineering and I will graduate in the last year 2022. I have 2 years of experience in working as a front-end web developer at ViecCo and 1 year as a Full-stack developer at AxonActive software company. Besides, I am a Software Engineer. I was passionate about code, I was self-study to learn everything related to code through online courses and especially I am really interested in the work as a front-end developer, I have been involved in many practical projects related to Web development.
